Camera Cleaning

Safe for use with all digital cameras, filters, smartphones,

▶ CS-1500 Cleaning Kit

for foto, video, audio,
IT equipment, hobby

Contents:

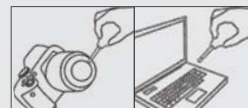

- ▶ 1 x Air Blower "Blue Booster"
- ▶ 1 x Retractable 2-Step Vario-Brush
- ▶ 1 x Optical Fluid 30 ml spray pump bottle
- ▶ 1 x Silky Wipe Cleaning cloth 25 x 25 cm
- ▶ 6 x Cotton Swabs "double tip"

▶ T-1060 Air Blower "Blue Booster"

blower for extra
strong air-flow

- ▶ removes dust particles from delicate surfaces such as lenses and more

▶ T-1070 Retractable 2-Step Vario-Brush

- ▶ the goat-hair brush is particularly soft and adjustable in two steps:

19 mm = firm
34 mm = soft

- ▶ antistatic effect
- ▶ the brush is retractable and therefore protected in the handle
- ▶ washable with babyshampoo and lukewarm water

LCD monitors, photo frames and other optical equipment

▶ T-1020 Silky Wipe

▶ Green Clean Silky Wipe 25 x 25 cm consists of smooth, tightly spun silk derivative / cotton yarns, without chemical binders or bleach

▶ the quality of the cloth is therefore very soft and it does not quickly absorb the cleaning fluid

▶ washable 30°C

▶ LC-1000 Silky Liquide & Wipe

**for lenses, filters,
optics, photo frames**

- ▶ powerful optical cleaner with dirt-repellent effect
- ▶ careful cleaning
- ▶ fast acting
- ▶ dirt-repellent effect
- ▶ residue-free
- ▶ no alcohol
- ▶ washable 30°C

▶ C-6010 Touchpad Cleaner

**for smartphones,
tablets, netbooks, GPS**

- ▶ high quality lint free microfibre cloth 20 x 20 cm, can be used wet and dry
- ▶ washable 30°C
- ▶ liquid contains no alcohol
- ▶ provides antistatic protection and anti smudge effect

Sensor Cleaning System Professional System for DSLR Cameras: safe, eco

All digital CCD & CMOS sensors have sensitive surfaces which are best left untouched. Removing dust particles with the contact-free method of the Mini Vacuum prevents mechanical damage of the sensor surface!

If smear or grime remain on sensor after vacuum action, use Wet & Dry pre-soaked applicators wet foam swab and dry sweeper.

► SC-4000 Sensor Cleaning System Full Frame Size

for sensor size
36 x 24 mm

Contents:

- 1 x Air + Vacuum Power HI TECH 400 ml
- 1 x Mini Vacuum V-3000
- 3 x Wet & Dry Sachets full frame size (24 mm)
- 3 x Pick Up protective tube

► SC-4100 Mini Vacuum "Traveller Kit"

Contents:

- 1 x Air + Vacuum Power HI TECH 150 ml
- 1 x Mini Vacuum V-3000
- 2 x Pick Up protective tube

► SC-4200 Sensor Cleaning System Non Full Frame Size

for sensor size
15 mm up to 24 mm

Contents:

- 1 x Air + Vacuum Power HI TECH 400 ml
- 1 x Mini Vacuum V-3000
- 3 x Wet & Dry Sachets non full frame size (15 mm)
- 3 x Pick Up protective tube

► SC-4060
Wet & Dry
 Full Frame Size

for sensor size
 36 x 24 mm

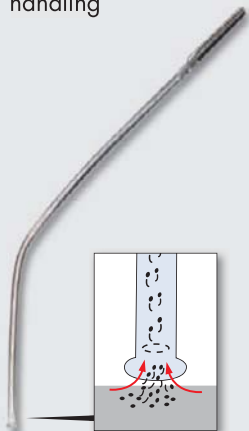

- Wet & Dry are pre-soaked, individually sealed applicators with correct fluid content.
- The special pre-treatment of our Dry Sweeper guarantees stripe free cleaning!

► SC-4050
Pick-Up

protective tube
 for Mini Vacuum

- abrasion-free
- non conductive
- trumped shaped end
- ergonomic bend for easy handling

► SC-4070
Wet & Dry
 Non Full Frame Size

for sensor size
 15 mm up to 24 mm

- Wet & Dry are pre-soaked, individually sealed applicators with correct fluid content.
- The special pre-treatment of our Dry Sweeper guarantees stripe free cleaning!

► SC-0500
Clip & Flip

the hands free
 magnifier

- its crystal-clear acrylic lenses give you a sharp, distortion free view that allows you to see the finest details at the low-pas filter

► G-2016, G-2051
Air + Vacuum
Power HI TECH

Air + Vacuum Power,
 150 ml or 400 ml

- HI TECH pressurized gas is especially strong, stable and productive thus resulting in the most economical method of sensor cleaning.

GREEN CLEAN®
 ► for fine technics

Sensor Cleaning System for cameras with ultra sonic dust-reduction

An inexpensive solution saving you a trip to the camera service.

► SC-5200 After Shake Kit

Contents:

- 5 x Wet & Dry After Shake
- 1 x Clip & Flip "hands free magnifier"
- 1 x lint free polishing cloth 10 x 10 cm

► SC-5070 After Shake – Wet & Dry

- Wet & Dry are pre-soaked, individually sealed applicators with correct fluid content.
- The special pre-treatment of our Dry Sweeper guarantees stripe free cleaning.

The professional way to clean digital backs

► SC-8000 Digi Back Cleaning System

Contents:

- 1 x HI TECH 400 ml
- 1 x Top Ventil release valve
- 1 x Antistatic thunderon brush
- 10 x „Silky Wipe“ cloths 8 x 8 cm
- 1 x Digital Capture Back Cleaning Liquid 15 ml

► SC-8050 Digi Back Cleaning Replacement

Contents:

- 10 x „Silky Wipe“ cloths 8 x 8 cm
- 1 x Digital Capture Back Cleaning Liquid 15 ml

All digital capture sensors (CCD & CMOS) have sensitive surfaces which are best left untouched. Contact-free cleaning methods are best! The unique Antistatic Set removes dust and antistatic charges from the sensor surface without direct contact.

If, after loose particles have been removed, smudges are still present on the surface apply Digi Back Cleaner and distribute with Silky Wipe.

**GREEN[®]
CLEAN**
► for fine technics

Optic Cleaning

► LC-7000 Optic Cleaning Kit

Contents:

- 1 x 150 ml Air Power
- 10 pc Lens Cleaner

Removes dust particles from the front lens. You can only achieve a perfect result by using an aerosol with compressed air.

Should sticky particles, grime streaks or finger prints remain, it is time to use a Wet and Dry cleaning method.

► LC-7010-10 / LC-7010-50 Lens Cleaner – 10 pc / Lens Cleaner Box – 50 pc

Consisting of both a wet and a dry special fleece cloth, packed in duo-sachets. The quality of the cloth used is decisive for the effectiveness of the cleaning agent.

The cloth is soaked with an exact dosage of the solution and specially developed for use on the surface of high-tech coated lenses.

Trust the material that's used by professional workshop technicians.

Discover the other half of Green Clean

Air Power, Air + Vacuum Power

Dust particles may scratch sensitive surfaces when they are mechanically removed. Non-contact and residue-free cleaning is therefore imperative.

► **Air & Vacuum Power and Dusting Tools** are essential for maintenance, service and repairs of sensitive components.

► **Air Power with one-use valve** is the disposable version for air dusting.

The power for both is "Green Clean" purified compressed gas.

Dusting Tools

► **Top Valve**
Exact pressure control for economical and pinpoint accuracy.

► **Antistatic Adapter**
Removes dust and static.

► **Dual Extender Set**
For optional use with plastic extension tube or pipe with stable metal tip.

► **Mini Vacuum**
"Under pressure" Venturi principle for gentle vacuuming or lifting off particles. Up to 2 mm.

Hearing aid cleaning

Air Pressure removal of dirt from the duct of "behind the ear" and "in the ear" devices is best for a safe cleaning process at low cost.

A specially developed valve for safe handling – the comfortable feeling and improved function of the hearing is only maintained if the vent duct is open.

Green Clean for Clean Screen

Working by Cleanliness!
Anti-static and Casing Cleaner, Intensive Cleaners for housings, Roller Cleaners, Universal Cleaner, LCD TFT & Plasma Cleaner, Cleaning Clothes and Swabs.

* Ultra low global warming potential, zero ozone depletion potential. The propellant 1234 ze used is non-flammable and environmentally friendly. With a zero potential of depleting the ozone and a GWP of only 6, the new propellant is well below the 150 limit of the European F-Gas Regulation.
